

Revived my nephew who was unconscious.

Learner : Ms Lui

Address : Taipei County, Shulin City

Tel : +886-2-89701385

I was introduced to “Longevityology” by a colleague, very often I suffer from minor ailments. I have noticed obvious changes in my health after my colleague has treated me enthusiastically, especially my painful menstruation I have been suffering for years, like a miracle it got better with the adjustment of Longevityology.

In March this year, I attended the primary and the intermediate courses eventually, as a routine I meditate/sitting quietly, now that I had the chakras opened,, make me feel like a tiger has grown wings, very often I feel my mind, my body and heart quiet down easily and reaching to a state of thoughtlessly and find harmony of peace, without knowing or feeling, all these minor ailments have disappeared without the use of medications.

Just when I started to experience the wonders of “Longevityology”, my cousin’s 19 years old son was involved in a car accident, he was unconscious, and the whole family seems plunged into the hole of darkness. In addition, thank goodness to the volunteers of “Longevityology” of the hospital, everyday they would go and apply adjustments to my nephew compassionately. Whenever we find time, my sister-in-law and I would go to the hospital to help with the treatment. For two whole weeks, there was no improvement observed, we were getting very anxious and downhearted, just when were about loosing confidence, all of a sudden, miraculously the patient woke up, and made a full recovery speedily, because of that the whole family felt we have been saved at the same time!

We are grateful to “Longevityology”, grateful to the universe, grateful to teacher Lin and teacher Wei, grateful to all the volunteers, and hope more people would benefit from “Longevityology”, wishing everyone well and happy!

Symptoms and adjustments: Menstruation pain, C2 + affected area (uterus, lower abdomen). Unconscious caused by accident, all chakras and re-in force head area.
